SUMMARY

Creative and detail-oriented Graphic Designer and Web Developer with over 8 years of experience delivering user-centered digital solutions. Proven ability to blend aesthetics with functionality across web, UI/UX, and branding projects. Skilled in both front-end development and visual storytelling, offering a unique combination of design expertise and technical proficiency. Passionate about empowering fellow designers, crafting impactful digital experiences, and staying ahead of emerging design and development trends. Currently thriving as a freelancer—delivering tailored solutions, mentoring creatives, and continuously learning. A proactive and adaptable professional, ready to collaborate and demonstrate value through hands-on contributions from day one.

EXPERIENCE

SAE Joint Secretary

Chendhuran College of Engineering and Technology

June 2023 - Present Pudukkottai

- Coordinated and led various **SAE** (Society of Automotive Engineers) student chapter activities, workshops, and technical events to foster innovation and hands-on learning among peers.
- Collaborated with faculty and external experts to organize seminars, guest lectures, and project showcases related to automotive engineering and emerging technologies.
- Promoted student engagement and technical participation by **managing communications, event promotions, and member outreach**.
- Played a key role in strategic planning and execution of campus-wide tech events, improving club visibility and student involvement.
- Encouraged interdisciplinary teamwork and learning by integrating design and engineering principles into event planning and execution.

Graphic Designer

SAI GRAPHICS & COG GRAPHICS

February 2017 - Present Pudukkottai

- Created compelling visual designs for print and digital platforms, including branding materials, packaging, advertisements, and social media assets, resulting in improved client visibility and engagement.
- Led end-to-end design projects by interpreting client briefs, presenting concepts, incorporating feedback, and delivering final assets on time and on brand.
- Developed brand identities from scratch for startups and small businesses, helping them establish a consistent and memorable market presence.
- Leveraged design software such as Adobe Photoshop, Adobe Dimensions, Blender and CorelDRAW to produce high-quality visuals that met industry standards and exceeded client expectations.
- Directly with print vendors to ensure color accuracy, print quality, and file optimization, reducing production errors and turnaround time.

PROJECT

Portfolio

Myself • sair2005.github.io • November 2024 - Present

- Designed and developed a personal portfolio website to showcase a wide range of creative and technical projects, including branding, web design, and UI/UX case studies.
- Curated and presented project details, workflows, tools used, and outcomes to demonstrate design thinking, technical skills, and real-world impact.
- Continuously updated portfolio with new, reflecting growth in skillset, creative direction, and industry trends.
- Used modern web technologies like HTML, CSS, JavaScript, and Figma to ensure responsive design, intuitive navigation, and professional visual appeal.
- Positioned the portfolio as a central tool for networking, client acquisition, and professional visibility.

My College Website

Chendhuran College of Engineering and Technology • melodious-valkyrie-d3dc47.netlify.app/ • May 2025 - June 2025

- Designed and developed the official college website with a modern, responsive layout to enhance user experience and accessibility across devices.
- Collaborated with faculty and administrators to gather content, define structure, and ensure the site met institutional branding and communication needs.
- Implemented intuitive navigation, organized academic and departmental information, and integrated features like event updates, notices, and contact forms.
- Used HTML, CSS, JavaScript, and responsive design principles to ensure cross-browser compatibility and smooth performance.
